Build your own with a
Reliable & Quality
Driven Pharma Company
(Since-2016)

**Your vision,
our packaging solutions**

ABOUT US

What began as a vision in 2016 has today evolved into a trusted and progressive name in the pharmaceutical packaging industry. Our journey started with the establishment of **HR Sons in 2016**, specializing in the trading of premium-quality Alu Alu Foil and catering to the growing demands of the pharma sector with integrity, reliability, and customer-focused service.

With continuous market understanding and a commitment to innovation, **HR Sons** expanded its operations in 2023 by entering into the manufacturing of Blister Printing Foil and Strip Foil, strengthening its presence in the pharmaceutical packaging segment and enhancing its capability to deliver comprehensive packaging solutions under one roof.

Driven by the passion for excellence and long-term growth, we took another significant step forward in **2024 with the Establishment of Mahadev Polytech**, a dedicated manufacturing unit for high-quality PVC Blister Foil. Equipped with advanced technology, modern infrastructure, and stringent quality control systems, **Mahadev Polytech** is committed to delivering world-class packaging materials that meet the highest pharmaceutical industry standards.

Today, our journey stands as a reflection of vision, innovation, and continuous progress. From trading to advanced manufacturing, we remain committed to delivering superior quality, building lasting partnerships, and setting new benchmarks in the pharmaceutical packaging industry through trust, technology, and excellence.

Vision

To become a globally trusted leader in pharmaceutical packaging solutions by delivering innovative, high-quality, and sustainable products that set new benchmarks in reliability, technology, and customer satisfaction. We envision building a future driven by excellence, continuous growth, and long-term partnerships across the healthcare and packaging industry.

Our Group of Companies

Our Group of Companies is built on a strong foundation of trust, quality, and innovation. With diversified operations in pharmaceutical packaging materials and allied industries, we are committed to delivering excellence through advanced manufacturing, reliable trading solutions, and customer-focused services.

PVC FILMS FOR HIGH BARRIER BLISTER PACKAGING

Our PVC Blister Foil is manufactured using premium-grade raw materials and advanced production technology to meet the demanding standards of the pharmaceutical packaging industry. Designed for excellent thermoforming performance, clarity, durability, and sealing compatibility, our films ensure superior protection and presentation of pharmaceutical products.

We offer Pharma Grade PVC Blister Foils with consistent thickness, high transparency, excellent mechanical strength, and reliable forming properties suitable for high-speed blister packing machines. Our products are developed to maintain product integrity, enhance shelf appeal, and ensure safe packaging solutions.

Key Features

- ❖ Excellent thermoforming properties
- ❖ High transparency and gloss finish
- ❖ Superior sealing compatibility
- ❖ Uniform thickness and dimensional stability
- ❖ Pharma Grade quality standards

Applications

- ❖ Pharmaceutical tablet packaging
- ❖ Capsule blister packaging
- ❖ Healthcare and nutraceutical products
- ❖ FMCG and consumer product blister packs

Specifications

Thickness	150 μm - 500 μm
Options	Clear, Coloured and Opaque
Forming Temperature	130 - 250°C
Width	50mm to 1300mm
Core ID / Reel OD	Core ID: 76mm, Reel OD: 300-400mm
Packaging	Standard Tight Shrink Wrap & Corrugated box Packaging

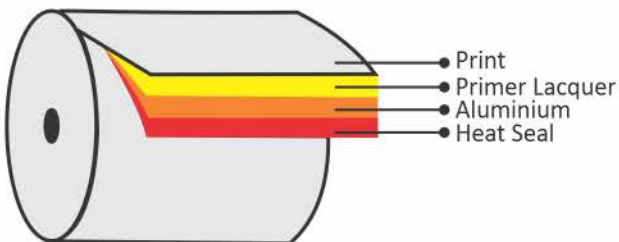

PRINTED BLISTER FOIL

Our Printed Aluminium Blister Foil is manufactured using advanced technology with up to **7-colour High-definition Printing Facility**, delivering exceptional visual appeal and premium packaging quality for pharmaceutical products. Designed for blister packaging applications, the foil provides outstanding barrier protection against moisture, oxygen, light, and contamination, ensuring product safety and extended shelf life.

Produced with pharma-grade raw materials and precision coating, our blister foil offers excellent sealing strength, superior machinability, and sharp print registration suitable for high-speed packaging lines. We provide customized printing solutions to enhance product branding and packaging presentation.

Key Features:

- ❖ Excellent barrier protection against moisture & light
- ❖ Superior heat seal performance with PVC, PVDC & Alu-Alu Foil
- ❖ Sharp print clarity & accurate colour registration
- ❖ Pharma-grade hygienic manufacturing
- ❖ Compatible with high-speed blister packaging machines
- ❖ Customized sizes, designs & printing options available
- ❖ Ideal for tablet and capsule blister packaging
- ❖ Heat Seal Lacquer & Primer Coated.

Alu-Alu Foil & Strip Foil

We are engaged in the trading and supply of premium quality Alu Alu Foil and Strip Foil catering to the pharmaceutical packaging industry. Sourced from trusted and certified manufacturers, our products ensure superior barrier protection, durability, and compliance with international quality standards.

With a strong focus on timely delivery, competitive pricing, and customer satisfaction, we provide reliable packaging solutions suitable for tablets, capsules, and pharmaceutical formulations. Our commitment to quality and consistency has helped us build long-term relationships with clients across the industry.

Your vision,
our packaging solutions

QUALITY ASSURANCE

At **Mahadev Polytech**, quality is not just a standard — it is our commitment to excellence. We adhere to stringent quality control measures and industry-compliant manufacturing practices to ensure that every product delivers superior performance, consistency, and reliability.

Our range of PVC Blister Foil, Printed Blister Foil, Strip Foil, and Alu Alu Foil is manufactured using premium-grade raw materials and advanced production technology under strict supervision. Each batch undergoes rigorous inspection and testing to maintain high standards of barrier protection, sealing strength, dimensional accuracy, print quality, and durability.

With a strong focus on precision, hygiene, and customer satisfaction, we continuously upgrade our processes and infrastructure to meet the evolving requirements of the pharmaceutical and packaging industries. Our commitment to innovation, timely delivery, and uncompromised quality enables us to deliver packaging solutions that our customers can trust with confidence.

We are equipped with advanced in-house testing facilities, we conduct comprehensive quality checks at every stage of production to ensure product consistency and compliance with industry specifications. Our dedicated quality team continuously monitors manufacturing parameters and testing procedures to deliver defect-free and high-performance packaging solutions.

MAHADEV POLYTECH IS ACCREDITED BY

Your vision, our packaging solutions

At Mahadev Polytech, quality and compliance are at the core of our operations. Our manufacturing processes and quality management systems are backed by internationally recognized certifications, reflecting our commitment to delivering reliable and premium pharmaceutical packaging solutions.
